

STROKE REHAB REDEFINED

REGAIN STRENGTH | RECLAIM LIFE

WITH INDIA'S MOST ADVANCED HAND REHABILITATION PROGRAM

LET'S START YOUR COMEBACK JOURNEY!

Personalised Attention | Research-Driven Care
Enrol Now, Transform Tomorrow

A NEW HOPE FOR STROKE SURVIVORS

Because Every Hand Deserves a Second Chance!

Welcome to our revolutionary 12-week stroke rehabilitation program to help you restore upper limb function and live functionally independent again

WHY JOIN OUR PROGRAM?

- Personalized rehab: With BCI robotic hand exoskeleton built at IIT Kanpur, or Advanced Hand Recovery through Precise Exercises, supported by the latest Clinical Research
- Neuro biomarkers tracking
- Expert-led, compassion-driven, and goal-based treatment
- Free of cost sessions as per norms

WHO CAN JOIN?

You can be a part of this program, with the specifications mentioned:

- Stroke survivors who are more than three months post-stroke
- Age between 18 & 75 years
- Any difficulty moving the hand after a stroke
- Also motivated to get better

A Government Funded Project - All information collected during this study will be kept confidential
